

Comprehensive Course Outline & System Reference Manual

An end-to-end screen-by-screen guide, module architectural reference, and operational standard operating procedure (SOP) for Biashara Enterprise ERP.

Target Audience:	Business Owners, Financial Controllers, Accountants, Operations Managers & Systems Administrators
Regional Compliance:	Kenya & East Africa (Kenyan Shillings KES, KRA VAT 16%, SHIF/NHIF, PAYE, Housing Levy, NSSF)
System Coverage:	10 Core Modules 65+ Dedicated Screens & Routes Full Accounting & CRM Lifecycle
Document Version:	Version 2.4 (Production Release)
Last Updated:	July 2026

Executive Summary & Curriculum Goal:

Biashara ERP is a modern, enterprise-grade cloud ERP platform built specifically for fast-growing businesses. This curriculum provides an exhaustive walkthrough of every single screen, module, workflow, and financial control embedded in the application. Learners and system operators will gain complete mastery over sales pipelines, multi-warehouse inventory, quote-to-cash operations, procure-to-pay automation, statutory Kenyan payroll, double-entry general ledger, KRA VAT tax compliance, and super-admin multi-tenant controls.

Curriculum Table of Contents

Module 1: Foundation, Security & Onboarding	Module 6: Kenyan Payroll & HR Engine
Module 2: CRM, Contacts & Sales Pipeline	Module 7: General Ledger, Assets & Controls
Module 3: Product Catalog & Warehouse Inventory	Module 8: Financial Intelligence, Tax & Reports
Module 4: Sales Operations & Invoicing (Q2C)	Module 9: Client Portal & Self-Service
Module 5: Procurement, Expenses & Payables (P2P)	Module 10: Super Admin & Multi-Tenancy

MODULE 1: Foundation, System Architecture & Business Onboarding

Establishes core system architecture, authentication workflows, multi-tenant organization context, and initial business onboarding configuration.

Key Learning Objectives:

- Understand user authentication and session security protocols.
- Configure business profiles, base currency (KES), KRA PINs, and brand styling.
- Navigate the primary global dashboard shell, navigation menu, and search shortcuts.

Screen-by-Screen Functional Map:

Route / Path	Screen Name	Key Features & Operating Responsibilities
/login & /signup	Authentication Portal	Secure user registration, password authentication, and session cookie initialization.
/forgot-password & /update-password	Account Recovery	Self-service password recovery flow via email token validation.
/onboarding	Organization Setup Wizard	Initial business configuration: Organization Name, KRA PIN, Currency (KES), Fiscal Year, and Brand Colors.
(app)/layout.tsx Shell	Global Desktop & Mobile Shell	Primary application interface: Sidebar Navigation, Global Search (Cmd+K), Notification Bell, and Impersonation Banner.

Core Operating Workflow: *User Registration → Security Verification → Organization Provisioning → Global Workspace Access.*

MODULE 2: Customer Relationship Management (CRM) & Sales Pipeline

Manages customer and vendor directories, contact credit limits, customer statements, and visual Kanban sales pipelines.

Key Learning Objectives:

- Master contact creation with proper tax classification (Customer vs. Vendor).
- Generate custom customer account statements for debt collection.
- Track high-value deal opportunities using visual Kanban stages.

Screen-by-Screen Functional Map:

Route / Path	Screen Name	Key Features & Operating Responsibilities
/contacts	Contacts Master Directory	Searchable, filterable list of all customers and vendors with active balance metrics.
/contacts/new	Contact Registration Form	Detailed contact entry: KRA PIN, Email, Phone, Payment Terms, Bank Details, and Billing/Shipping Addresses.
/contacts/[id]	Contact Profile & History	Comprehensive 360-degree contact view displaying open invoices, payments, quotes, and activity timeline.
/contacts/[id]/statement	Customer Statement Generator	Custom date-range statement generator exporting PDF account balances for customer reconciliation.
/pipeline	Kanban Sales Pipeline	Interactive drag-and-drop CRM deal board tracking opportunity stages, deal values, and closing dates.

Core Operating Workflow: Lead Generation → Opportunity Tracking (Pipeline) → Contact Profiling → Credit Limit Assignment.

MODULE 3: Product Catalog, Multi-Warehouse & Stock Transfers

Oversees physical goods and service items, multi-location warehouse management, inventory reorder points, and stock movement logs.

Key Learning Objectives:

- Distinguish between physical Inventory Goods and intangible Services.
- Configure multiple warehouse locations with custom bin IDs and stock levels.
- Execute inter-warehouse stock transfer orders with audit trail verification.

Screen-by-Screen Functional Map:

Route / Path	Screen Name	Key Features & Operating Responsibilities
/items	Items & Services Directory	Master list of products and services, stock on hand, purchase costs, and sales prices.
/items/new	Item Creation Form	Configures SKU, Item Name, Type (Goods/Service), Unit Price, Purchase Price, Income GL, Expense GL, and Initial Stock.
/items/warehouses	Warehouse Directory	List of all physical storage locations, distribution centers, and storage capacity metrics.
/items/warehouses/[id]	Warehouse Detail & Bin Inspection	Warehouse-specific stock inventory list, bin numbers, and localized valuation.
/items/transfers	Stock Transfer Management	Creates and tracks stock movement between warehouses, updating localized inventory balances in real time.

Core Operating Workflow: Item Definition → Stock Intake / Receiving → Multi-Warehouse Allocation → Stock Transfer Order Execution.

MODULE 4: Sales Operations, Invoicing & Revenue Management (Q2C)

Covers the end-to-end Quote-to-Cash (Q2C) lifecycle, customized document templates, M-Pesa payment recording, credit notes, and recurring retainers.

Key Learning Objectives:

- Draft professional sales quotes and convert them seamlessly to binding invoices.
- Apply accurate Kenyan VAT tax classes (B16 Standard 16%, Exempt, Zero-Rated).
- Log manual customer payments (M-Pesa, Wire, Cash) and issue credit notes for returns.

Screen-by-Screen Functional Map:

Route / Path	Screen Name	Key Features & Operating Responsibilities
/sales/quotes	Quotations Directory	Status tracker for draft, sent, accepted, and declined customer quotes.
/sales/quotes/new & /[id]/edit	Quote Builder	Drafts estimates with line items, quantity, discounts, tax selection (B16), and custom terms.
/sales/quote-templates	Quote PDF Customizer	Designs visual PDF quotation templates with custom headers, colors, and legal disclaimers.
/sales/invoices	Invoices Master Hub	Comprehensive invoice list with status indicators (Paid, Overdue, Partial, Draft).
/sales/invoices/new & /[id]	Invoice Engine & View	Generates tax invoices, converts from quotes, prints formatted PDFs, and sends client links.
/sales/invoice-templates	Invoice Branding Studio	Customizes tax invoice branding, payment instructions, bank details, and footer text.
/sales/payments	Payment Settlement Directory	Logs customer payments against outstanding invoices, updating invoice status to Paid.
/sales/payments/events	Gateway Event Log	Audit log of automated payment gateway webhooks (M-Pesa Express, KopoKopo, Card settlements).
/sales/credit-notes	Credit Notes Directory	Manages customer returns, sales adjustments, and credit note issuance against invoices.
/recurring	Recurring Billing Schedules	Automates monthly/quarterly subscription invoicing schedules and retainer billing.

Core Operating Workflow: Quotation Issued → Customer Approval → Invoice Generation → Payment Receipt (M-Pesa/Bank) → Ledger Posting.

MODULE 5: Procurement, Vendor Bills & Accounts Payable (P2P)

Manages Purchase Orders, vendor bills, operational expenses, employee reimbursable claims, and automated bulk payment runs.

Key Learning Objectives:

- Issue official Purchase Orders to suppliers and track delivery status.
- Record vendor bills with input VAT tax credit claims.
- Process employee expense claims and execute automated bulk payment runs.

Screen-by-Screen Functional Map:

Route / Path	Screen Name	Key Features & Operating Responsibilities
/purchases/orders	Purchase Orders Directory	Tracking supplier POs, approval statuses, and fulfillment progress.
/purchases/orders/new	PO Builder	Drafts purchase orders with vendor line items, expected delivery dates, and delivery addresses.
/purchases/bills	Vendor Bills Directory	Accounts payable hub tracking supplier bills, due dates, and unpaid liability balances.
/purchases/bills/new & /[id]	Bill Entry & Detail View	Logs vendor bills, claims input VAT credits, attaches receipt attachments, and approves bills.
/purchases/expenses	Expenses Directory	Tracks operational cash expenses (Fuel, Rent, Utilities, Office Supplies).
/purchases/expenses/new	Expense Entry Form	Logs direct expense payouts with GL account assignment, tax inclusion, and payment method.
/expense-claims	Employee Expense Claims	Portal for staff to submit out-of-pocket expense claims for manager review and reimbursement.
/purchases/payment-runs	Automated Payment Runs	Batch processing tool to select approved bills/expenses and execute bulk payouts.

Core Operating Workflow: PO Creation → Vendor Delivery → Bill Logging (Input VAT) → Manager Approval → Bulk Payment Run Settlement.

MODULE 6: Kenyan Payroll Engine, Statutory Compliance & HR

Implements full Kenyan statutory compliance (KRA PAYE tiers, SHIF, NHIF, NSSF, Housing Levy), staff loans, timesheets, and monthly payslips.

Key Learning Objectives:

- Maintain complete employee profiles with statutory KRA, NSSF, and SHIF numbers.
- Configure statutory tax brackets, personal relief (KES 2,400/mo), and insurance relief.
- Execute monthly payroll runs, amortize staff loans, and export itemized payslips.

Screen-by-Screen Functional Map:

Route / Path	Screen Name	Key Features & Operating Responsibilities
/payroll/employees	Employee Directory	Master roster of active, on-leave, and terminated staff members.
/payroll/employees/new & /id]	Employee Profile & Pay Terms	Configures basic salary, housing allowance, transport allowance, KRA PIN, NSSF ID, and SHIF ID.
/payroll/rules	Statutory Rule Engine	Defines tax formula parameters: PAYE bands, SHIF (2.75%), NSSF Tiers I & II, Housing Levy (1.5%).
/payroll/loans	Staff Loans & Advances Hub	Tracks company loans granted to employees, interest rates, and automated monthly repayment schedules.
/payroll/runs	Payroll History & Run Launcher	Directory of past payroll runs and launcher for initiating new monthly payroll cycles.
/payroll/runs/[id]	Payroll Execution & Payslip Studio	Computes gross-to-net salary breakdown, deductions, generates payslips, and posts payroll to GL.
/time-tracking	Timesheets & Attendance Log	Tracks hourly work logs, project time allocation, and billable employee hours.

Core Operating Workflow: Employee Seeding → Time Tracking / Loan Deductions → Payroll Engine Execution → Payslip Distribution → KRA/SHIF Remittance.

MODULE 7: General Ledger, Asset Register & Financial Controls

Enforces double-entry financial accounting, chart of accounts customization, manual journals, cost centers, fixed assets, and period locking.

Key Learning Objectives:

- Navigate the Chart of Accounts structure (Assets, Liabilities, Equity, Revenue, Expense).
- Post balanced manual journal entries for accruals and reclassifications.
- Manage Fixed Asset depreciation schedules and enforce accounting period locks.

Screen-by-Screen Functional Map:

Route / Path	Screen Name	Key Features & Operating Responsibilities
/accountant	Chart of Accounts (CoA) Master	Hierarchical structure of all financial accounts, account codes, and live balance metrics.
/accountant/ledger/[id]	General Ledger Account Detail	Itemized debit and credit transaction history for any specific account code.
/accountant/journals	Manual Journals Directory	Audit log of all manual accounting journal entries and reclassifications.
/accountant/journals/new	Journal Entry Builder	Drafts multi-line debit/credit journal entries with mandatory zero-variance balancing check.
/accountant/cost-centers	Cost Centers & Departments	Defines cost centers for departmental, regional, or project-based profitability tracking.
/accounting/assets	Fixed Asset Register	Directory of company assets (Vehicles, Machinery, IT Equipment) with cost basis and book value.
/accounting/assets/new	Asset Acquisition & Depreciation	Registers new asset, selects depreciation method (Straight Line / Reducing Balance), and sets useful life.
/accounting/budgets	Annual Budget Manager	Creates financial budgets per account and tracks month-by-month actual vs. budget variance.
/accounting/drawings	Owner Drawings & Equity	Logs equity withdrawals, capital injections, and partner dividend distributions.
/accounting/period-lock	Financial Period Lock Screen	Locks past accounting periods to prevent unauthorized editing of audited financial records.
/banking	Bank Accounts & Reconciliation	Monitors bank account balances, imports bank statements, and performs statement reconciliation.

Core Operating Workflow: Transaction Capture → Automated GL Posting → Manual Journal Adjustment → Period Lock Safeguard.

MODULE 8: Financial Intelligence, Analytics & Tax Reporting

Provides executive analytics, formal financial statements (P&L, Balance Sheet, Cash Flow), aging reports, and KRA VAT return filings.

Key Learning Objectives:

- Interpret Executive Analytics dashboards for business performance evaluation.
- Generate core financial statements (Profit & Loss, Balance Sheet, Cash Flow).
- Audit books health and export KRA-compliant VAT return filings (Output VAT vs Input VAT).

Screen-by-Screen Functional Map:

Route / Path	Screen Name	Key Features & Operating Responsibilities
/analytics	Executive KPI Dashboard	Real-time visual charts: Revenue growth, gross margin ratios, top clients, and cash runway.
/reports	Master Reports Hub	Centralized launcher for all operational, financial, tax, and sales performance reports.
/reports/pnl	Profit & Loss (P&L;) Statement	Calculates net income by summarizing operating revenue, cost of goods sold (COGS), and expenses.
/reports/balance-sheet	Balance Sheet Statement	Snapshot of organization solvency: Total Assets = Total Liabilities + Equity.
/reports/cash-flow	Cash Flow Statement	Tracks cash inflows and outflows across Operating, Investing, and Financing activities.
/reports/trial-balance	Trial Balance & Books Health	Audit tool verifying that total debit balances equal total credit balances across all GL accounts.
/reports/vat & /vat3	KRA VAT Tax Return Generator	Computes Output VAT charged on sales minus Input VAT paid on purchases for monthly KRA filing.
/reports/aging	Accounts Receivable & Payable Aging	Categorizes outstanding debts into 0-30, 31-60, 61-90, and 90+ day overdue buckets.
/reports/sales/*	Detailed Sales Analytics	Granular reports: Sales by Customer, Sales by Item, Quote Conversion Rate, and Credit Note Summary.

Core Operating Workflow: Operational Data Collection → Trial Balance Verification → Financial Statement Generation → Tax Filing (KRA VAT).

MODULE 9: Client Portal & Customer Self-Service

Enables customers to securely log in, view account statements, download invoices, track CRM deals, and access support documentation.

Key Learning Objectives:

- Configure and brand the customer self-service portal.
- Allow clients to review, accept estimates, and pay invoices online.
- Publish user guides and FAQs in the integrated Knowledge Base.

Screen-by-Screen Functional Map:

Route / Path	Screen Name	Key Features & Operating Responsibilities
/portal/[orgSlug]/login	Client Portal Authentication	Secure branded login interface for external clients and customers.
/portal/[orgSlug]/(dashboard) /dashboard	Customer Portal Dashboard	Summary screen for clients displaying outstanding balance, total billed, and recent invoices.
/portal/[orgSlug]/(dashboard) /documents	Customer Document Center	Client repository to view, print, and download PDF quotes, tax invoices, and payment receipts.
/portal/[orgSlug]/(dashboard) /deals	Client Project Tracker	Allows clients to view ongoing project milestones, deal stages, and deliverable timelines.
/settings/knowledge-base	Knowledge Base Studio	Admin editor to create, edit, and publish client help articles, guides, and FAQs.
/portal/[orgSlug]/(dashboard) /knowledge	Client Support Hub	Public-facing searchable help desk for customers to read documentation and FAQs.

Core Operating Workflow: Portal Provisioning → Client Account Activation → Online Document Access → Interactive Quote Acceptance.

MODULE 10: System Administration, Security & Multi-Tenancy

Empowers system administrators to manage global organization settings, payment gateways, subscription plans, super-admin security, and audit logs.

Key Learning Objectives:

- Configure M-Pesa Paybill/Till, KopoKopo, and SMS gateway credentials.
- Manage multi-tenant subscriptions, plan upgrades, and feature overrides.
- Utilize Super Admin Impersonation for debugging and review system audit trails.

Screen-by-Screen Functional Map:

Route / Path	Screen Name	Key Features & Operating Responsibilities
/settings	General Organization Settings	Updates organization legal name, tax registration number, logo, time zone, and default terms.
/settings/payments	Payment Gateway Configuration	Integrates M-Pesa Express, Paybill, Till Numbers, KopoKopo, and Credit Card processing keys.
/settings/sms	SMS Gateway Settings	Configures SMS gateway credentials (e.g. Africa's Talking) for automated invoice/payment SMS notifications.
/settings/billing	Subscription & Plan Management	Displays current subscription tier (Free, Standard, Business), renewal dates, and usage limits.
/admin	Super Admin Control Center	Master dashboard for platform owners displaying total organizations, MRR revenue, and system health.
/admin/orgs & /admin/orgs/[id]	Organization Directory & Impersonation	List of all tenant organizations with 'Impersonate' trigger for remote administrative support.
/admin/subscriptions & /revenue	Subscription Revenue & MRR	Tracks platform monthly recurring revenue (MRR), subscription renewals, and payment history.
/admin/audit	Security Audit Log	Tamper-evident log tracking super-admin actions: impersonations, plan overrides, and admin management.
/admin/health & /cron	System Diagnostics & Cron Monitor	Monitors database connection pools, background cron jobs, automated billing cycles, and system uptime.
/admin/announcements	Platform Announcements Studio	Publishes platform-wide notification banners visible to all logged-in organization users.

Core Operating Workflow: *System Configuration → Gateway Integration → Subscription Monitoring → Audit Trail Review.*
