

Running your business on Zeno — every module, every role, start to finish.

From a customer's first quote to a fully reconciled, fully paid, fully filed month-end — written for every role in the org, not just admins. Every screenshot in this guide is a real screen from a live Zeno account.

01

How This Guide Works

ORIENTATION

Every section covers one part of the system, in the order a real transaction moves through it — what it's for, the ideas you need, and where to find it. Tags show which area of the business it belongs to; the Roles line shows who it matters to.

Roles Everyone

NOTE

Zeno is built around one idea: the ledger is the hub. Every module — quotes, invoices, bills, payroll, assets — ultimately posts to the same double-entry ledger.

02

The Big Picture

ORIENTATION

Money moves through Zeno in a predictable line.

- Contact → Quote → Invoice → Payment → Ledger.
- Purchase Order → Bill → Payment (the mirror image on the spending side).
- Payroll Run → Post to Ledger → Record Salary Payment.
- Everything ends up in Accountant — nothing in Reports or Analytics is calculated separately.

ADMIN

Every staff account has one role, and every role has a fixed list of modules it can see. An admin can toggle any module for any role — built-in or custom — from Staff & Roles, and the change applies immediately.

What each role can see

Toggle modules per role — changes apply to everyone with that role immediately. Admins always see everything.

Custom role name

Add Role

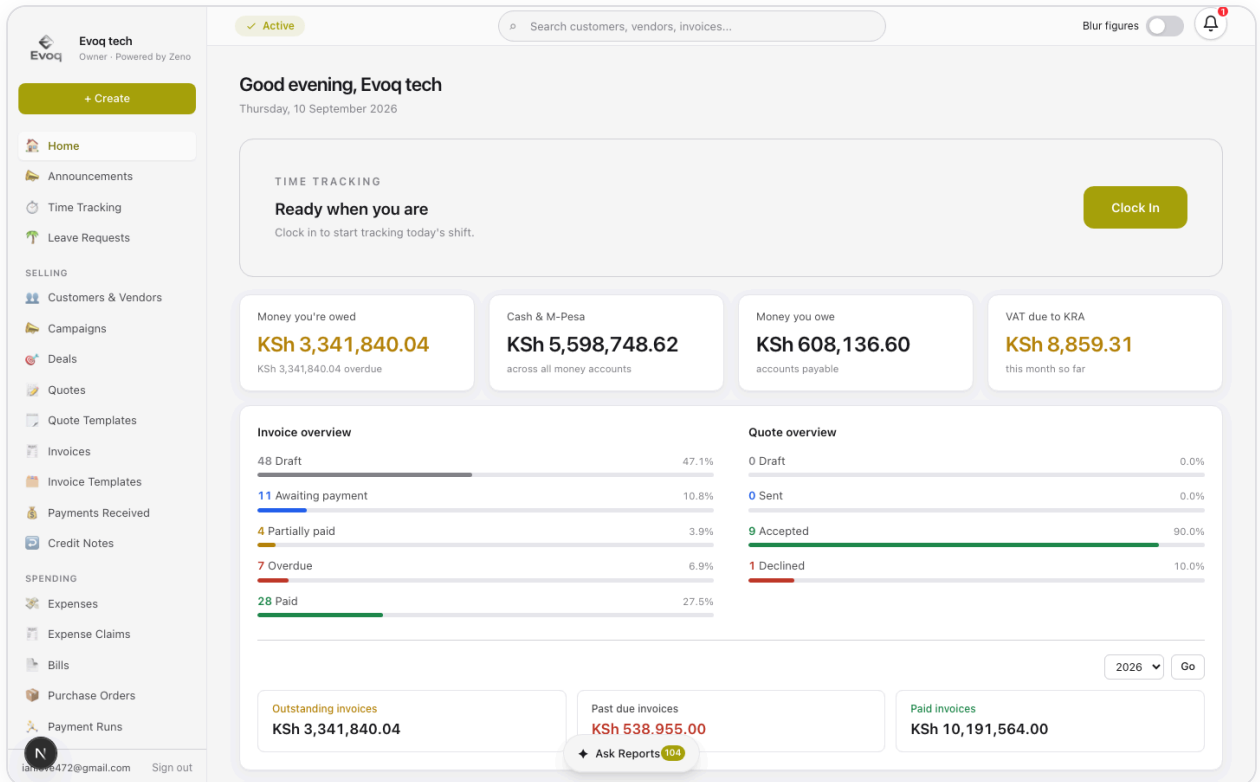

MODULE	ACCOUNTANT	SALES	HR	INVENTORY	STAFF	MARKETER	BRANDING
Home dashboard	Ask Reports 104						

Staff & Roles — team list and the permission matrix, live.

OPERATIONS

The first thing everyone sees on login. Admins/accountants see the full financial picture; a role without the Financials permission (Marketer) sees none of it — just the calendar and to-dos.

Roles Everyone

Home — KPI cards, invoice/quote overview.

SALES

One shared address book — a contact can be a customer, a vendor, or both. Source, Assigned to, and Next follow-up are non-financial fields a Marketer can use without ever seeing money.

A contact's own page — overview, documents, statement.

A lightweight pipeline for tracking opportunities before they become a quote or invoice — entirely optional.

Roles Admin / Owner · Sales

The screenshot displays the 'Deals' section of the Evoq tech application. The interface includes a sidebar with navigation options like Home, Announcements, Time Tracking, Leave Requests, and various selling and spending tools. The main area shows a pipeline board with stages: Lead, Qualified, Quote sent, Negotiation, Won, and Lost. A deal titled 'Website redesign for charise' is currently in the 'Qualified' stage, valued at KSh 47.0K. The board also features a search bar, a 'Blur figures' toggle, and a 'Ask Reports' button at the bottom.

SALES

MONEY

Every invoice line carries KRA-compliant VAT and is eTIMS-ready. A Credit Note can be raised even on a fully paid invoice — that's the normal case, not a bug.

Chart of Accounts and journal tools.

Equipment, furniture, vehicles the business owns — plus intangible assets that amortize.

Roles Admin / Owner · Accountant

The screenshot shows the 'Fixed Assets' management interface in the Evoq tech application. The interface is divided into a left sidebar, a top header, and a main content area. The sidebar contains navigation links for Home, Announcements, Time Tracking, Leave Requests, and a 'SELLING' section with links for Customers & Vendors, Campaigns, Deals, Quotes, Quote Templates, Invoices, Invoice Templates, Payments Received, Credit Notes, and a 'SPENDING' section with links for Expenses, Expense Claims, Bills, Purchase Orders, and Payment Runs. The top header includes the Evoq tech logo, a status indicator 'Active', a search bar, and a 'Blur figures' toggle. The main content area is titled 'Fixed Assets' and includes a subtitle 'Manage and depreciate long-term assets'. It features a 'Register Asset' button, an 'Asset Register' section with a date selector set to 'September 2026' and a 'Run Depreciation' button, and a message stating 'No fixed assets registered yet.' at the bottom. A footer bar at the bottom right contains a link to 'Ask Reports' with a notification badge showing '104'.

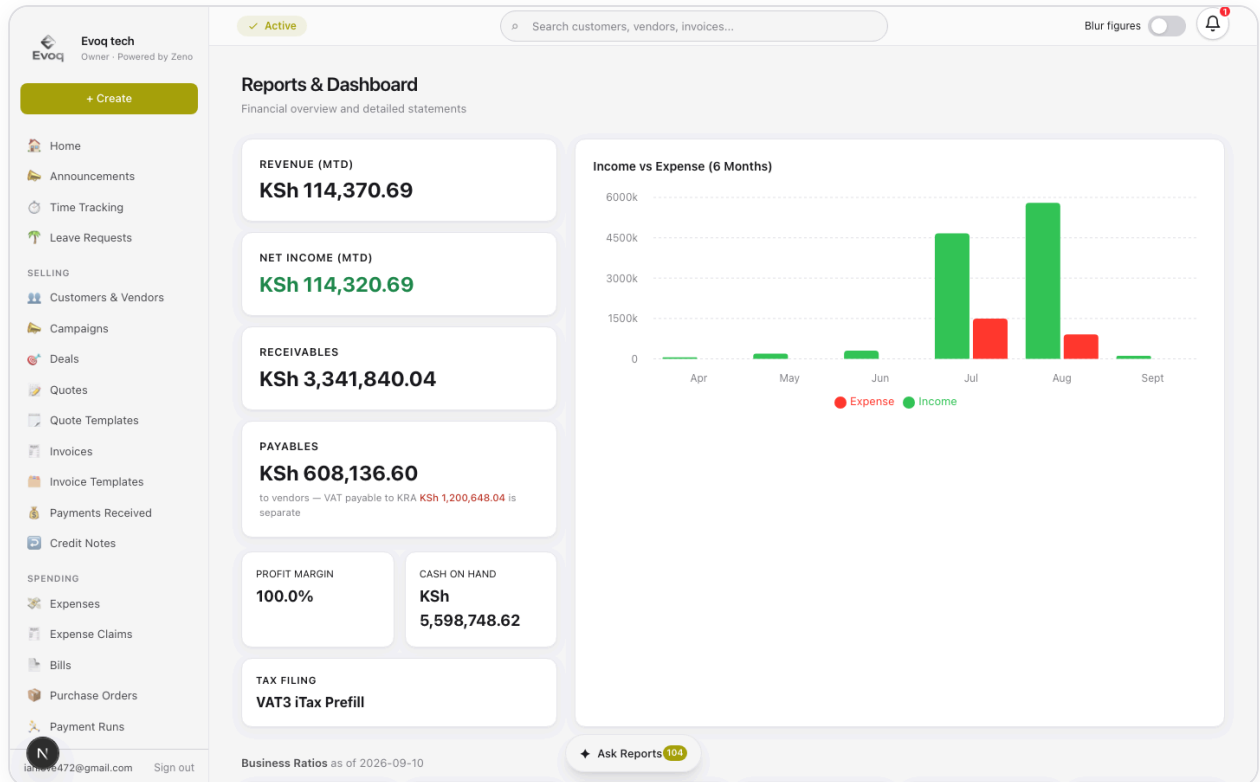

Fixed Assets — register.

MONEY

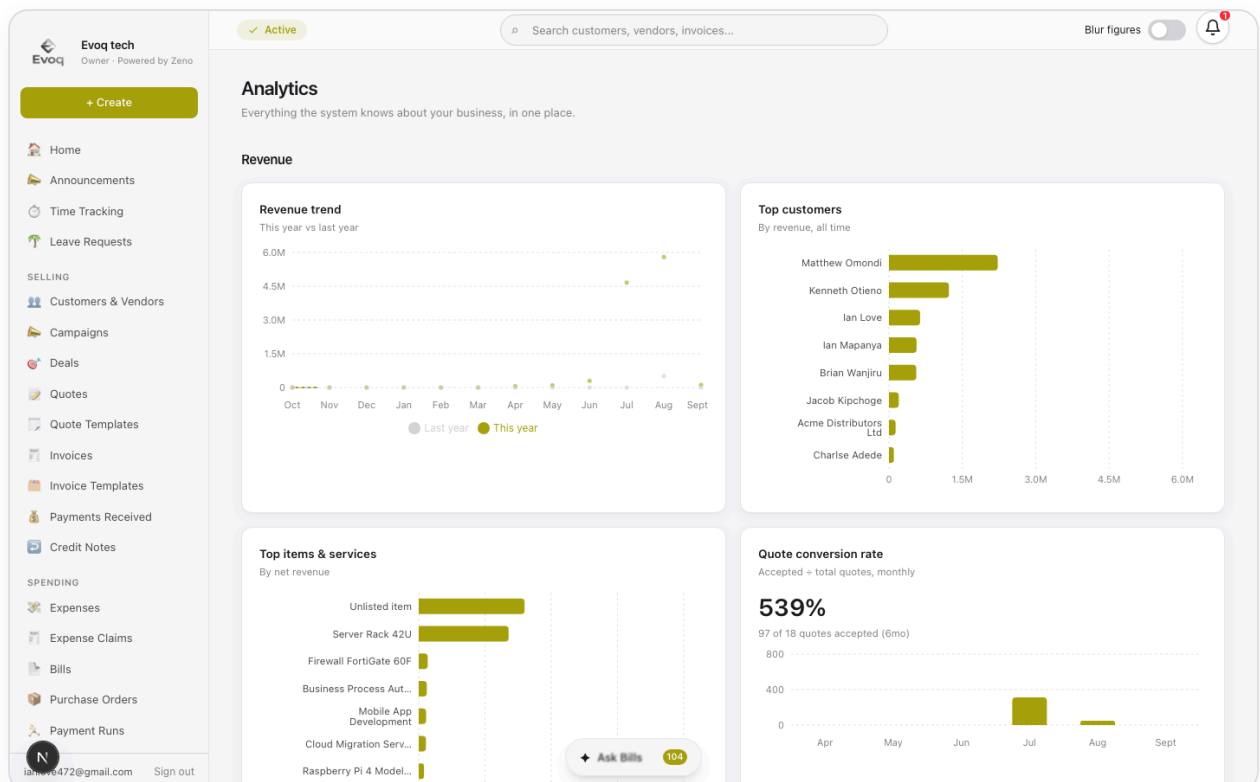

INSIGHTS

Reports is the compliance layer; Analytics is the decision layer — revenue trend, activity rings, top customers, quote conversion.

Roles Admin / Owner · Accountant · HR

Reports — trial balance, P&L, VAT.

Analytics — activity rings and invoice mix.

Posting is two steps: "Post to Ledger" accrues the liability, "Record Salary Payment" clears it against a real account.

Roles Admin / Owner · HR

The screenshot shows the 'Payroll' section of the Evoq tech application. The left sidebar contains navigation links for Home, Announcements, Time Tracking, Leave Requests, SELLING (Customers & Vendors, Campaigns, Deals, Quotes, Quote Templates, Invoices, Invoice Templates, Payments Received, Credit Notes), and SPENDING (Expenses, Expense Claims, Bills, Purchase Orders, Payment Runs). The main content area is titled 'Payroll' with the subtitle 'Manage monthly payroll runs and statutory deductions'. It features a 'Recent Runs' table with columns for MONTH, STATUS, and JOURNAL ENTRY. The table shows two runs: one for 2026-08 with status 'posted' and journal entry #334, and another for 2026-07 with status 'posted' and journal entry #167. A 'Create Run' button is visible in the top right corner of the main area. The bottom of the sidebar shows the user's email 'lan@e472@gmail.com' and a 'Sign out' link.

MONTH	STATUS	JOURNAL ENTRY
2026-08	posted	#334
2026-07	posted	#167

Payroll Runs.

The screenshot shows the 'Employees' section of the Evoq tech application. The left sidebar is identical to the previous screenshot. The main content area is titled 'Employees' with the subtitle 'Manage payroll staff and basic salaries'. It features a table with columns for NAME, KRA PIN, NSSF NO., SHIF NO., BASIC SALARY, and STATUS. The table lists five employees: two named 'Joseph masiga' with a basic salary of KSh 30,000.00, two named 'lan mapanya' with a basic salary of KSh 40,000.00, and one named 'Test Employee' with a basic salary of KSh 50,000.00. All employees have a status of 'Active'. An 'Add Employee' button is located in the top right corner of the main area. The bottom of the sidebar shows the user's email 'lan@e472@gmail.com' and a 'Sign out' link.

NAME	KRA PIN	NSSF NO.	SHIF NO.	BASIC SALARY	STATUS
Joseph masiga	-	Y78855577	T56878	KSh 30,000.00	Active
Joseph masiga	-	Y78855577	T56878	KSh 30,000.00	Active
lan mapanya	-	798HBUIH	UHBIU7362	KSh 40,000.00	Active

ORIENTATION

- A sale: Quote → sent → accepted → Convert to invoice → paid via M-Pesa STK → posts automatically.
 - A purchase: Purchase Order → delivered → Convert to bill → paid or batched into a Payment Run.
 - Payroll: run → PAYE/NSSF/SHIF/AHL calculated → Post to Ledger → Record Salary Payment.
-

REFERENCE

Contact

One shared record for a customer, vendor, or both.

Category heading

A bold, zero-price divider line grouping quote/invoice/bill lines into sections.

Post to Ledger

The step that turns a document into a real double-entry journal entry.

FIFO costing

Each stock purchase creates its own cost lot; a sale consumes the oldest lot first.

This guide also lives in-app under Settings → Documentation, filtered to what your own role can see. If something there doesn't match this PDF, the in-app version is current — this is a snapshot.
